5 UNITED STATES DISTRICT COURT
6 WESTERN DISTRICT OF WASHINGTON
7 AT TACOMA

8 UNITED STATES OF AMERICA,

9 Plaintiff,

v.

10 JAMES MICHAEL SNIDER,

11 Defendant.

12 CASE NO. CR22-5294 BHS

13 ORDER

14 This matter is before the Court on Defendant James Michael Snider's motion for
15 early termination of supervised release. Dkt. 10.

16 On October 30, 1996, the Honorable Ralph G. Thompson of the United States
17 District Court of the Western District of Oklahoma sentenced Snider to 360 months of
18 imprisonment and 5 years of supervised release after a jury found him guilty of one count
19 of Conspiracy to Manufacture Methamphetamine, two counts of Manufacture of
20 Methamphetamine, one count of Possession with Intent to Distribute Methamphetamine,
21 one count of Distribution of Methamphetamine, and one count of Felon in Possession of
22 a Firearm. Dkt 2. Snider completed his term of incarceration and began his term of
 supervised release in the Western District of Washington on February 15, 2022. His

1 supervision is scheduled to terminate in February 2027. Jurisdiction was transferred to
2 this District on October 3, 2022. Dkt. 1.

3 Snider previously moved this Court to terminate his supervision early in March
4 2024. Dkt 6. The Court denied Snider's request but stated it would consider another
5 motion for early termination once Snider had completed half of his term of supervised
6 release in October 2024. Dkt 8.

7 Snider now renews his motion to terminate his supervision early. Dkt. 10. He
8 asserts that he has demonstrated a "longstanding commitment to overcoming his
9 methamphetamine addiction" and that he has not used methamphetamine in 28 years. *Id.*
10 He has maintained negative urinalysis results for drugs and alcohol since his last
11 violation in January 2024. *Id.*; Dkt. 11 at 2. He states that he lives a "quiet lifestyle" with
12 the support of his partner's family and despite significant health issues, works part time.
13 *Id.* at 3-4.

14 The United States does not oppose his request for early termination of supervision.
15 Dkt. 10 at 1.

16 Probation acknowledges that that Snider has "performed quite well on
17 supervision" and "does not appear to present a risk of harm to the public," but it is unable
18 to endorse his request "due to violation behavior" within the last 12 months. Dkt. 11 at 2.

19 The Court concludes that early termination of supervision is appropriate at this time.
20 Compliance with the conditions of supervised release for an extended period
21 demonstrates rehabilitation and that the possibility of early termination provides incentive
22 to defendants to do well on supervision. Snider has demonstrated sustained compliance

1 with the terms of his supervision before renewing his motion for early termination of
2 supervision. The Court commends Snider on his sobriety from methamphetamine and
3 achieving a stable community and home environment.

4 **I. ORDER**

5 Therefore, it is hereby **ORDERED** that Snider's motion for early termination of
6 supervised release, Dkt. 10, is **GRANTED**.

7 Dated this 1st day of October, 2024.
